Hail showers	Heavy Rain	Light rain showers	Sunny intervals	Thundery showers	Heavy rain showers
Precipitation probability					
80%	80%	40%	20%	60%	40%

Forecast for Saturday 06 Jul 2024

Weather: Extensive early cloud and outbreaks of heavy rain, possibly thundery, will slowly clear during Saturday morning. Becoming brighter with a mixture of sunny spells and blustery showers in the afternoon. The showers are likely to be heavy and possibly thundery at times, with the risk of hail. Any showers gradually easing during the evening, with some bright/clear spells developing.

Chance of cloud-free hill tops above 800m: Near nil early morning, then 90% thereafter.

Low Cloud and visibility: Cloud lowering to cover hills above 400m early morning, slowly lifting to become well broken at 800 metres as rain clears away to the east. Heavy showers will temporarily reduce this during the day. Poor visibility at first, improving as the rain clears to see generally very good visibility, falling to poor or very poor in heavy showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High UV levels are expected. Heavy showers and thunderstorms will lead to some dangerous conditions on the summits, with the risk of frequent lightning, gusty winds and hail, during the day. Unseasonably cold on summits.

Forecast for Sunday 07 Jul 2024

Weather: Largely dry with some clear spells overnight, which will lead to a bright start on Sunday. However, the clouds will begin to bubble up to give another day of sunny spells and scattered showers. The showers are likely to be heavy and thundery at times, with risk of hail. Any showers gradually easing by the evening, becoming largely dry with some brighter spells. Staying dry with clear spells after dark.

Maximum wind: Southwesterly 10-15mph, occasionally gusts 20-25mph.

Chance of cloud-free hill tops above 800m: 60% at first, generally >95% during the day.

Low Cloud and visibility: Cloud lowering to above 500m first thing, then generally lifting above the summits during the day. Occasionally lowering to the summits in heavy showers. Visibility will be moderate or poor in heavy showers throughout the day, but generally, good or very good outside of showers.

Temperature: **Valleys:** Plus 10 Celsius, becoming Plus 14 Celsius.
At 800m: Plus 4 Celsius, becoming Plus 7 Celsius.
Freezing level: Above the summits.
